

Dr. Sarah Chen

Email: sarah.chen@example.com | Phone: +1-555-019-2834 | Location: San Francisco, CA | LinkedIn: linkedin.com/in/sarahchen-ds

PROFESSIONAL SUMMARY

Accomplished Senior Data Scientist with 6+ years of experience engineering scalable machine learning pipelines, predictive modeling, deep neural networks, and business intelligence solutions. Proven track record deploying production AI systems serving over 5 million daily requests.

TECHNICAL SKILLS

Key Competencies: Python, SQL, Pandas, NumPy, Scikit-learn, PyTorch, TensorFlow, Docker, Git, AWS, Spark, Tableau, Machine Learning, Deep Learning, REST APIs

PROFESSIONAL EXPERIENCE

Senior Data Scientist — TechCorp Inc. — 2021 – Present

- Architected end-to-end customer churn prediction engine using PyTorch and XGBoost, reducing quarterly churn by 18% and retaining \$2.4M in ARR.
- Optimized high-throughput feature store pipelines in Pandas and SQL, reducing ETL processing latency by 35%.
- Mentored a team of 4 junior data scientists and established ML model evaluation standards across 6 engineering teams.

Machine Learning Engineer — Apex Data Solutions — 2018 – 2021

- Developed recommendation algorithms leveraging collaborative filtering and embeddings, boosting user conversion rates by 24%.
- Automated continuous training and model validation workflows using Docker and AWS SageMaker.

KEY PROJECTS

Real-Time Fraud Detection Platform: Engineered real-time anomaly detection pipeline with PyTorch, Kafka, and FastAPI detecting 99.4% fraudulent transactions under 50ms latency.

Open Source NLP Benchmark Suite: Created open-source evaluation benchmark with 1,200+ GitHub stars and 50k+ downloads.

EDUCATION

Ph.D. in Computer Science & Artificial Intelligence — Stanford University (2018)

B.S. in Applied Mathematics & Statistics — UC Berkeley (2014)

CERTIFICATIONS & AWARDS

- AWS Certified Machine Learning — Specialty (2023)
- Deep Learning Specialization — DeepLearning.AI
