

ALEXANDER CHEN

Senior AI & Full-Stack Developer

alex.chen@email.com | (555) 234-5678 | San Francisco, CA | [linkedin.com/in/alexchen-dev](#)

PROFESSIONAL SUMMARY

Innovative Senior Full-Stack and AI Engineer with 5 years of software development experience specializing in Python, TypeScript, FastAPI, and LLM-powered applications. Proven track record in building enterprise RAG pipelines, scalable microservices, and reactive web platforms.

TECHNICAL SKILLS & COMPETENCIES

Programming Languages: Python, TypeScript, JavaScript, SQL, HTML5/CSS3

Backend & Frameworks: FastAPI, REST APIs, PostgreSQL, Redis, SQLAlchemy

Frontend Development: React.js, Next.js, TailwindCSS, Redux Toolkit

AI & Machine Learning: PyTorch, LangChain, OpenAI API, ChromaDB, RAG Architecture, Hugging Face

DevOps & Infrastructure: Docker, GitHub Actions, Git, Linux, AWS (S3, EC2)

PROFESSIONAL EXPERIENCE

Lead AI Application Developer | Nexus Tech Solutions | 2022 - Present

- Architected an end-to-end Enterprise RAG Search platform using FastAPI, LangChain, and ChromaDB, reducing internal search latency by 45%.
- Developed reactive user dashboards with Next.js, React, and TailwindCSS used by over 50,000 active enterprise users.
- Designed PostgreSQL database schemas and optimized complex SQL queries for real-time analytics.
- Built automated Docker container builds and deployed automated CI/CD pipelines via GitHub Actions.

Full-Stack Engineer | DataFlux Systems | 2019 - 2022

- Developed Python RESTful microservices serving 1M+ daily HTTP requests with high availability.
- Implemented frontend UI components using React and TypeScript adhering to strict design guidelines.
- Integrated Redis caching layer, improving API response times from 350ms to 40ms.

EDUCATION

B.S. in Computer Science - University of California, Berkeley (2015 - 2019)
